# Quarterly Journal of Microscopical Science

QH
201
Q2

JOINT EDITORS
C. F. A. PANTIN, Sc.D., F.R.S.
JOHN R. BAKER, D.Sc.

VOLUME 94. Third Series

Published for the Company of Biologists Limited
OXFORD: AT THE CLARENDON PRESS
LONDON: GEOFFREY CUMBERLEGE
1953

# CONTENTS

## Contents to Volume 94, Pt. 1

Page

**J. Brachet.** The Use of Basic Dyes and Ribonuclease for the Cytochemical Detection of Ribonucleic Acid . . . . . 1

**G. Krishnan.** On the Cuticle of the Scorpion *Palamneus swammerdami* . 11

**W. S. Hsu.** The Origin of Proteid Yolk in *Drosophila melanogaster* . 23

**J. Chayen** and **U. J. Miles.** The Preservation and Investigation of Plant Mitochondria . . . . . 29

**L. G. E. Bell.** Some Observations on Mouse Spermatids . . . 37

**B. John.** The Behaviour of the Nucleus during Spermatogenesis in *Fasciola hepatica* . . . . . 41

**G. Owen.** The Shell in the Lamellibranchia . . . . 57

**M. A. Dietrich.** A Histological Study of the Development of the Scales of the Largemouth Black Bass (*Micropterus salmoides*) . . . 71

**E. J. Naylor.** The Structure of the Cornea as Revealed by Polarized Light . 83

**P. Bacsich** and **G. M. Wyburn.** Formalin-Sensitive Cells in Spinal Ganglia 89

**V. B. Wigglesworth.** The Origin of Sensory Neurones in an Insect, *Rhodnius prolixus* (Hemiptera) . . . . . 93

## Contents to Volume 94, Pt. 2

**J. E. Harris** and **A. Peters.** Experiments on Vital Staining with Methylene Blue . . . . . 113

**K. F. A. Ross.** Cell Shrinkage caused by Fixatives and Paraffin-wax Embedding in Ordinary Cytological Preparations . . . . 125

**W. S. Morgan.** Cytological Studies of the Acinar Cells of the Pancreas of the Mouse. Part I. The Formation of Neutral Red Granules . . 141

**G. Chapman.** Studies of the Mesogloea of Coelenterates. I. Histology and Chemical Properties . . . . . 155

**H. V. Brøndsted.** The Ability to Differentiate, and the Size of Regenerated Cells, after repeated Regeneration in *Spongilla lacustris* . . 177

**B. R. Seshachar** and **C. M. S. Dass.** Macronuclear Regeneration in *Epistylis articulata* . . . . . 185

**E. R. Trueman.** The Ligament of *Pecten* . . . . 193

## Contents to Volume 94, Pt. 3

| | Page |
|---|---|
| . **E. R. Picken.** A Note on the Nematocysts of *Corynactis viridis* . . | 203 |
| . **A. Robson.** Nematocysts of *Corynactis*: The Activity of the Filament during Discharge . . . . . | 229 |
| **R. Baker** and **B. M. Jordan.** Miscellaneous Contributions to Microtechnique | 237 |
| **D. Smyth.** Standardization of Methyl Green for Specific Staining of Egg-shell Material in a Trematode . . . . . | 243 |
| . **R. Wilson** and **C. L. Foster.** Studies upon the Gram Reaction of the Basiphil Cells of the Anterior Pituitary. Part II. Observations upon the Effects of Various Methods of Fixation . . . . | 247 |
| . **E. Rogers.** The Localization of Dehydrogenase Activity and Sulphydryl Groups in Wool and Hair Follicles by the Use of Tetrazolium Salts . | 253 |
| **. S. Morgan.** Cytological Studies of the Acinar Cell of the Pancreas of the Mouse. Part II. The Argentophil, Osmiophil, and Sudanophil Substance | 269 |
| **J. W. Barrington.** The Relationship of the 'A' and 'B' Cells of the Pancreatic Islet Tissue of the Grass-snake (*Natrix natrix*) . . . | 281 |
| **I. Whitear.** The Stomatogastric Nervous System of *Arenicola* . . | 293 |
| **J. Hale.** Observations on Substances that react weakly to the Periodic Acid/Schiff Test . . . . . | 303 |
| . **Krishna.** The Lipoid Contents of the Golgi Bodies in the Oocytes of the Indian Water Spider, *Lycosa birmanica* . . . . | 315 |
| **A. Shafiq.** Cytological Studies of the Neurones of *Locusta migratoria*. Part I. Cytoplasmic Inclusions of the Motor Neurones of the Adult | 319 |
| **W. Cleland** and **E. C. Slater.** The Sarcosomes of Heart-Muscle. Their Isolation, Structure, and Behaviour under Various Conditions . . | 329 |

[P.T.O.

## Contents to Volume 94, Pt. 4

Page

Editorial . . . . . 341

**J. R. G. Bradfield.** New Features of Protoplasmic Structure Observed in Recent Electron Microscope Studies . . . . . 355

**M. M. Swann.** The Mechanism of Cell-division. A Study with Carbon Monoxide on the Sea-urchin Egg . . . . . 361

**J. M. Mitchison** and **M. M. Swann.** Measurements on Sea-urchin Eggs with an Interference Microscope . . . . . 383

**G. G. Selman** and **C. H. Waddington.** The Structure of the Spermatozoa in Dextral and Sinistral Races of *Limnaea peregra* . . . 397

**J. Z. Young.** Intracellular Membranes . . . . . 399

**J. R. Baker.** The Cell-theory: a Restatement, History, and Critique. Part IV. The Multiplication of Cells . . . . . 405

**A. C. Hardy.** On the Origin of the Metazoa . . . . . 441

**I. J. Lorch** and **J. F. Danielli.** Nuclear Transplantation in Amoebae. I. Some species characters of *Amoeba proteus* and *Amoeba discoides* . . 441

**I. J. Lorch** and **J. F. Danielli.** Nuclear Transplantation in Amoebae. II. The immediate results of transfer of nuclei between *Amoeba proteus* and *Amoeba discoides* . . . . . 463

**P. B. Medawar.** The Micro-anatomy of the Mammalian Epidermis . 483

**V. B. Wigglesworth.** Surface Forces in the Tracheal System of Insects . 500

**W. Holmes.** The Atrial Nervous System of Amphioxus (*Branchiostoma*) . 522

**J. E. Harris.** Physical Factors involved in the Vertical Migration of Plankton 533

**J. Gray.** Undulatory Propulsion . . . . . 555
